

SANGILI SARAVANA M

Aspiring Network Engineer | System Engineer | System Administrator

mssaravana427@gmail.com | 9345580733 | [Linkedin](#)

Summary:

Aspiring Network Engineer with a Bachelor of engineering in Computer Science Engineering and hands-on knowledge of networking, routing, switching, and network security fundamentals. Currently pursuing a Cyber Security & Networking Professional course at SYSTECH, with practical exposure to Cisco networking concepts, Windows Server, VMware, and Linux. Skilled in VLANs, OSPF, BGP, EIGRP, MPLS, SD-WAN, DHCP, DNS, NAT, ACLs, and network troubleshooting. Seeking an entry-level Network Engineer, Network Support Engineer, System Engineer, or System Administrator role. to apply technical knowledge and develop practical experience in a production environment.

Skills:

- **Routing Protocols:** Static Routing, OSPF, EIGRP, BGP, Route Redistribution, IPv6 Routing
- **Switching Technologies:** Switching, VLAN, Inter-VLAN Routing, Switch Port Security, STP, PVST
- **Network Security:** ACL, Firewall Fundamentals, Switch Security, NAT
- **WAN & Broadband Technologies:** ADSL Broadband Configuration, PPP, PAP, CHAP, MPLS, SD-WAN.
- **Network Management & Storage Infrastructure:** SNMP, NAS.
- **Windows Server:** Windows Server Installation & Configuration, Active Directory, DNS, DHCP, User & Group Management.
- **Hardware & Networking:** PC Hardware, Computer Assembly, OS Installation, Network Device Configuration, LAN Troubleshooting, Hardware Troubleshooting, Network Troubleshooting.
- **Tools & Platforms:** VMWare, Linux, Cisco Packet Tracer

Project Experience:

Core Enterprise Network Architecture | Cisco Packet Tracer

- Designed a secure enterprise network topology for approximately 200 users across multiple departments.
- Implemented VLAN segmentation for Accounts, HR, Sales & Marketing, IT, Admin, Guest, Printers, and Servers.
- Created a redundant design using dual ISPs, edge routers, an ASA firewall, and dual Layer-3 core switches.
- Configured routing, inter-VLAN communication controls, ACLs, NAT, and switch-security mechanisms.
- Integrated AD, DNS, DHCP, File, Application, Backup, and Syslog servers.
- Designed isolated guest Wi-Fi and IP phone connectivity through PoE access switches.

Final Year Project "Enhancing Automotive Face Recognition with Driver Distraction Detection System"

- Developed an application using computer vision to monitor driver behavior and detect distraction.
- Implemented face and eye detection for real-time video analysis.
- Integrated alerts to improve driver awareness and road safety.
- Published a research paper titled "Enhancing Automotive Face Recognition and Distraction Detection System" in IJSART.

Experience:**Vagus Technologies PVT. LTD – Trichy****Jun 2025 – Feb 2026****Direct Client - IT Recruiter**

- Managed end-to-end recruitment activities for IT requirements, including sourcing, screening, and shortlisting candidates.
- Coordinated interviews and communication between clients and candidates.
- Supported offer negotiation and onboarding processes.
- Built candidate pipelines using job portals and LinkedIn.
- Developed professional communication, coordination, and stakeholder management skills.

Education:

- Dhanalakshmi Srinivasan Matric Hr Sec School, Trichy, Tamilnadu – 10th Grade Passed with 85% - 2019
- SRV Matriculation Hr Sec School, Trichy, Tamilnadu – 12th Grade Passed with 87% - 2021
- CARE College of Engineering – Bachelors of Engineering in Computer Science Engineering – CGPA 7.5 – 2025

Certification:

- Cyber Security and Networking – SYSTECH, TRICHY (Pursuing)
- Internship Certificate – Full stack Web Development at PRODIGY INFOTECH.
- Enhancing Automotive Face Recognition and with Distraction Detection System" paper to IJSART
